

## GTZZ25J

Diesel articulated boom lift

### Easy to operate, good stability, no impact

Full scale gradient control— Full scale gradient control to driving, booms' up-down.

Booms' extending/retraction and chassis rotation, make it easy for the boom lift to locate even in an narrow space and operated much more placidly.

All functions on the control panel— marked by simple pictographic symbols.

Control system— Ground control box contains all debugging functions and associated with boom movements (including the operating handle on the platform).

#### Advantages:

- Strong loading capacity: Max. loading capacity is 230Kg;
- Wide working range: GTZZ25J is 16.1Ml;
- Great grade ability: Four-wheel drive is 45%;
- Max. driving speed is high:4.8Km/h.

#### GTZZ25J

Max. platform height	24.6m
Max. working height	26.6m
Max. horizontal reach	16.1m
Load capacity	230Kg
Platform size (L × W × H)	1.45x0.85x1.24m
Overall dimension L × W × H (stowed)	11.36mx2.48mx3.16m
Overall weight	15900Kg(4WD)

## TELESCOPIC BOOM LIFT

Telescopic Boom Lift is designed in the concept of solidity and durability and good performance to provide a safe and reliable aerial work platform for customers. It applies to even very tough conditions.

The vehicle can travel by itself flexibly during aerial operation (maximum working height is 44 meters). It is large in operation range, high in efficiency, powerful in driving force and large in load capacity.

This model is widely used for ship industry, large-sized steel structure, construction engineering, urban utilities and gardening, airport and harbor, curtain wall engineering, petrochemical industry, etc.

#### Advantages:

- Strong loading capacity;
- Wide working range;
- Great grade ability;
- Max. driving speed is high;
- Easy to operate, good stability, no impact, no shake.

#### GTBZ20

Max. platform height	20.6m
Max. working height	22.6m
Max. horizontal reach	17.5m
Load capacity	250Kg(non-restricted)/480Kg(restricted)
Platform size (L × W × H)	1.45x0.85x1.24m
Overall dimension L × W × H (stowed)	9.57mx2.49mx2.84m
Overall weight	11815kg(2WD)/11885kg (4WD)
